Career Objective

MCA student with strong foundations in MERN Stack, Data Structures & Algorithms, and Database Management Systems. Passionate about building scalable web applications and solving real-world problems. Seeking a Software Engineer or Full-Stack Developer role to apply technical skills, contribute to innovative projects, and grow as a software professional.

Essential Skills

Technical Skills

- **Programming Languages:** Java, JavaScript (ES6+)
- **Frontend:** HTML5, CSS3, Bootstrap, React.js, EJS (Templating)
- **Backend:** Node.js, Express.js, RESTful API, MVC Architecture
- **Databases:** MongoDB, MySQL (Beginner)
- **Tools & Platforms:** Git, GitHub, Render, Cloudinary
- **Core Subjects:** Data Structures & Algorithms, OOP, DBMS

Soft Skills

- Team Collaboration, Adaptability, Time Management, Problem Solving, Quick Learner, Active Listener

Education

Master of Computer Applications – Chandigarh University, Mohali	CGPA: 7.0/10.0	2027
Bachelor of Science – Dr. Bhim Rao Ambedkar University, Agra	CGPA: 8.4/10.0	2025
Higher Secondary Education – Uttar Pradesh Board	68%	2022
Secondary Education – Uttar Pradesh Board	80%	2020

Projects

Nexora AI – Full-Stack AI-Powered Chat Application Apr 2026 – Present

[Live Demo](#) — [GitHub](#)

- Developed an AI-powered chat application supporting thread-based conversations and persistent chat history management.
- Integrated Google Gemini API to generate context-aware responses and deliver an interactive conversational experience.
- Engineered scalable REST APIs and full-stack functionality using React.js, Node.js, Express.js, MongoDB, and Mongoose.

MeetVerse – Full-Stack Video Conferencing & Collaboration Platform Jun 2026 – Present

[Live Demo](#) — [GitHub](#)

- Developed a real-time video conferencing platform enabling secure meeting creation, video/audio calling, screen sharing, and live chat.
- Engineered low-latency communication and real-time participant interactions using WebRTC and Socket.IO.
- Designed secure authentication, protected meeting rooms, and scalable backend APIs using React.js, Node.js, Express.js, MongoDB, and JWT.

Voyanta – Full-Stack Travel & Property Booking Platform May 2026 – Jun 2026

[Live Demo](#) — [GitHub](#)

- Developed a full-stack travel and property booking platform featuring listings, advanced search, filtering, reviews, and booking management.
- Implemented secure authentication, authorization, and cloud-based image uploads using Passport.js, MongoDB, and Cloudinary.
- Integrated MapTiler API for location-based services and designed responsive user interfaces with EJS, Bootstrap, Node.js, and Express.js.

Certifications

• AWS Academy Generative AI Foundations – Amazon Web Services	2026
• Full-Stack Web Development – Apna College	2026
• Data Structures & Algorithms in Java – Apna College	2026
• React – The Complete Guide – Apna College	2026

Interests & Hobbies

- Passionate about problem-solving and building practical, solution-oriented applications for real-world challenges.
- Enthusiast of cycling and riding, fostering discipline, mental focus, and an active lifestyle.
